TACTICAL VOICE LOGGER EXP-M

A rugged portable solution from Cartel and Eventide

Unmatched Ruggedness & Flexibility Meets Top Quality Technology

The Tactical Voice Logger EXP-M (TVL EXP-M) provides the reliability and data rich communications recordings of Eventide's NexLog series application, matched with unbeatable compact ruggedness of the EXP-M hardware platform and integrated into a hardened transportable case to simplify tactical and deployable recording missions.

Eventide software paired with Cartel integration

Complete with a rugged touchscreen display, and external audio channel interfaces, everything you need to record sensitive critical communications is provided in one portable solution. Designed to withstand extreme conditions and rugged environments, while continuously providing top quality mission critical communications recording, the Tactical Voice Logger from Cartel Communication Systems is the most reliable solution for mission critical voice recording challenges.

Your turn key solution for complicated mission critical challenges.

Designed with tactical, rapid deployment or incident response in mind, the TVL EXP-M can be quickly deployed to capture mission-critical audio in many different environments. The TVL EXP-M provides flexibility in its ability to record Analog and VoIP audio sources with license based channel count scalability.

Technical Specifications

- **Dimensions**: 48 cm x 35.7 cm x 17.6 cm (18.9 in x 14 in x 6.9 in) (LxWxD).
- **Weight:** Approximately 31.5 lbs.
- **Operating Temperature:** Housed in a Pelican 1500 Case, the operating temperature ranges from -40 ° F to 167 °F (-40 °C to 75 °C).
- **Electrical:** External 12v DC power connection.
- **Recording Inputs:** Ability to record 2 and 4-wire analog, and VoIP audio sources through modular RJ45 connectors and a RCA input. Licensable up to 8 channel inputs - combination of analog and/ or IP.
- **Warranty:** 12 months of Eventide software license and warranty included.
- **Additional Support:** Extended warranty and licensing available through Cartel for ongoing assured security, reliability and supportability of your logger.
